You're slicing my throat
You're breaking my heart
It could have been you and I
But now we've have fallen appart
Now I just sit
Alone and so cold
Feeling so far from home
But now you've got a new start

I don't think I can see you
I don't want to see you this way
I don't think I can see you again
Get me out of this place

Words can't describe
What I'm feeling inside
Torn between rage and tears
Now something has died

I don't think I can see you
I don't want to see you this way
I don't think I can see you again
Get me out of this place

When you're alone
Alone and so cold
Will you think back on me
And hope the storm will subside

I don't think I can see you
I don't want to see you this way
I don't think I can see you again
Get me out of this place
