In the beginning, we were those kids,
That played on the dirt fields
But with determination,
we came from the bottom
and rose to the top
we chased and grabbed
ahold of our dreams,
now we play on the fields
were the grass is greenest

and we can tell from the
looks on their face
when they find out what the
dream is we chased
they hate
but we as a team
have a phrase we say when
negativity comes our way
don't tread on this

game took hold like the roots of a tree
think soccer ain't a sport?
then why'd NIKE sign me?
cause i got on my job
and made the game ferocious
i was born with a drive
i got that from no coaches

big hulk & duece
spittin truth in the booth
stop drop and role
i brings down the roof
got nothing to lose
and everythin to prove
don't change the mood
cause we done paid our dues

best to give way
for the USA
now we're hot
you might think we're a sun ray
in over your heads

southside, we fed
this is life and im grinding
until I'm dead

Thanks to DJ Screw
this aint friday night lights
but i got the infrared
yeah and you already know
beggars on the shoes
Chehade did the deal and
big hulk came through

everybody out your seat
bob your head to this
real recognize real
we was bred for this
the dream is real
don't tread on this
we live the dream
don't tread on this

everybody out your seat
bob your head to this
real recognize real
we was bred for this
the dream is real
don't tread on this
we live the dream
don't tread on this

see i'ma just do it like nike
spit it so nicely
when i'm done some ain't gon' like me
i'ma try to say it politely
so we is.....
so i might come across a tad bit fiesty

check my resume and see
what i've done
i'm official like the
check on my AF1
from the slums
raised off noth'n but crumbs
i don't want none
and look what i've become

ahuh ahuh im a just keep it real
and my brother's ghetto dreams
will be fulfilled

and on the field

deuce gonna show his skills
wheel to wheel for real
and so it feels

my balls are real
so home boy please
don't tempt me
or i'll cross you over like the
great clint dempsey
the rhyme is simple so
please don't tread on this
this is soccer and rap
with a screwed up twist

everybody out your seat
bob your head to this
real recognize real
we was bred for this
the dream is real
don't tread on this
we live the dream
don't tread on this

everybody out your seat
bob your head to this
real recognize real
we was bred for this
the dream is real
don't tread on this
we live the dream
don't tread on this

don't wake a sleeping giant
unless you wanna see him pissed
though im quick with my feet
you aint seen the fist
it'd be a one hitter quitter
then class dismissed
best a think twice before you
try and tread on this

games hard on the street
cause with no shoes on their feet
winning satisfies hunger
they don't need to eat
yeah we came here to learn
but we're starting to teach
cause we stood in the shadows
now you can see

haters wanna hate

but man im feeling great
thanks to soccer
i'm around more ice
then a hockey skate
more cash than's in a bank
no need for yall to rate
i done cut the yard
and threw the trash away

in the south we got the game on lock
more game than a game cock
in Texas we plead block
straight close up shop
im gettin twisted
steppin on rough
you think we trippin'?
check the stats yourself

everybody out your seat
bob your head to this
real recognize real
we was bred for this
the dream is real
don't tread on this
we live the dream
don't tread on this

everybody out your seat
bob your head to this
real recognize real
we was bred for this
the dream is real
don't tread on this
we live the dream
don't tread on this
