Tear away open up and get the full design
Tear away from us

Can you separate all that's wrong
Walk me in your shoes and show me how
Within boundaries they'll hold you down
Give strength to all your weakness to fall behind the
others

Away from us
Now we're crawling up
Away from us
Now we're kissing the ground

Move us through the dark
Now we're crawling up
Move us through the dark
Now we're kissing the ground

Can we play off all that's wrong
A hum in my head is not enough
Within boundaries they'll hold you down
Give strength to all your weakness to fall behind the
others

Away from us
Now we're crawling up
Away from us
Now we're kissing the ground

Move us through the dark
Now we're crawling up
Move us through the dark
Now we're kissing the ground
