I don't know what I'd do if I ran into you,
I think I'd take a rope and I'd make you a noose,
Watch you kick and flail as you take your last breath,
If the fall first didn't break your neck,

To break your curse,
I'd go one worse,
I'd rid your type,
Exterminate,

For all the hurt, and all the pain,
You feel no wrath, you take no blame,
For what it's worth, I wish you no well,
And I'm going first, follow me to hell,
Follow me to hell, follow me to hell, follow me to hell

You're an animal that just should have been left caged,
A no good mother f*cker with a black and twisted
brain,
If I knew first about your deviant plan,
I would have warned that girl about the evils of man,

To break your curse,
I'd go one worse,
I'd rid your type,
Exterminate,

For all the hurt, and all the pain,
You feel no wrath, you take no blame,
For what it's worth, I wish you no well,
And I'm going first, follow me to hell,
Follow me to hell, follow me to hell, follow me to hell
