where are they now
where did they go
where are those people who just said no
they crashed and burned my spirit, inside
lost my courage and end my pride

people don't know what they do
they make me blue
people don't know how i cry
inside i die
people don't know what they do
they make me blue
people don't know how i cry

misunderstood, exaggerated
i carried on and i did my hair
no one will ever see how this came to be
carried on and be free

people don't know what they do
they make me blue
people don't know how i cry
inside i just die

people don't know what they do
they make me so blue
people don't know how i cry

they say
she's so passionate in her ways
she'll never make it today
she's singing all the time
singing in the wrong rhyme

people don't know what they do
they make me so blue
people don't know how i cry
inside i just die
people don't know what they do
they make me so blue
people don't know how i cry
people don't know how i cry

people don't know how i cry
