Mmm, yeah
Backdoor lover, ooh

This kind love is wrong but you know that it's so right
Running my hands cross your cheeks, they, oh, so
smooth and white
Leave the light on, baby, and lock your backdoor
I'll be coming through that way tonight to love you for
sure

Lying on your back staring up at the moon
You got me crazy but I love you soon

I'm your backdoor lover, coming from behind with the
lights down low
Backdoor lover, just you and me, no one has to know
Backdoor lover, let me meet you there at the secret
spot
I'll show you a love that's more than hot

You know that I won't hurt you, so open up and let me in
We love each other way to much for it should be a sin
Some people use the front door but that's never been
my way
Just 'cause I slip in backdoor, well, that doesn't make
me, hey

Lying on your back staring up at the moon
You got me crazy but I love you soon

I'm your backdoor lover, coming from behind with the
lights down low
Backdoor lover, just you and me, no one has to know
Backdoor lover, let me meet you there at the secret
spot
I'll show you a love that's more than hot

Baby going around in circles 'cause you're
Everything and you know what I wanna do
Maybe we can get together at your place tonight
Just open your backdoor tonight

Backdoor lover, coming from behind with the lights
down low
Backdoor lover, just you and me, no one has to know
Backdoor lover, let me meet you there at the secret
spot
I'll show you a love that's more than hot

Backdoor love, you are my one and only backdoor love,
oh
Backdoor love, you are my one and only love, oh

Backdoor lover, coming from behind with the lights
down low
Backdoor lover, just you and me, no one has to know
Backdoor lover, let me meet you there at the secret
spot
I'll show you a love that's more than hot

Backdoor lover, coming from behind with the lights
down low
Backdoor lover, just you and me, no one has to know
Backdoor lover, let me meet you there at the secret
spot
I'll show you a love that's more than hot

Backdoor lover, coming from behind with the lights
down low
Backdoor lover, just you and me, no one has to know
Backdoor lover, let me meet you there at the secret
spot
I'll show you a love that's more than hot
