I wanna walk with you, I'd like to talk to you
Everything you say just thrills me through and through
Yes, darling, I'm still in love with you

I often wonder why, I always sit and sigh
Just at the thought of a girl like you
You've left me, that's why I'm lonely and blue

You know that I love you, baby, and I try to be true
Now, I'm not going to break your heart now, baby
Or do anything that will make us part
Yes, I love you

I wanna walk with you, I'd like to talk to you
Everything you say just thrills me through and through
Yes, darling, I'm still in love with you
Baby, I'm still in love with you

You know that I love you, baby, and I've tried to be true
I'm not going to break your heart now, baby
Or do anything that will make us part
Yes, I love you, baby

I wanna walk with you, I'd like to talk to you
Everything you say just thrills me through and through
Yes, darling, I'm still in love with you
Baby, I'm still in love with you
