I heard you never go to sleep

The nights are probably long

The streets are teeming with the dead

And we rarely get alone
And if your walking home tonight

Take another road home

Cause you could take a chance on me

That a gang does it wrong
Come on all you vampires

With your blood sucking ways

Come on and turn me out

Ooooo

When the lights go out

How you gonna find your way
And I've been talking in my sleep

And what I said I got it wrong

And every word that I will sing

Is someone elses song
I'm moving out, I'm moving soon

I'm gonna cast my doubt down there

I left my wadded on the shelf

Just to show you I don't care
Come on all you vampires

With your blood sucking ways

Come on and turn me out

Ooooo

When the lights go out

How you gonna find your way
Come on all you vampires

With your blood sucking ways

Come on and turn me out

Ooooo

When the lights go out

How you gonna find your way
Well maybe we were doomed from the beginning

And I guess I should have warned you lady

Don't go to your end

Cause I've been hearing lately

The stars are out of line

That I'm bleeding

I really shouldn't want you

That I will be your end
Come on all you vampires

With your blood sucking ways

Come on and turn me out

Ooooo

When the lights go out

How you gonna find your way
Come on all you vampires

With your blood sucking ways

Come on and turn me out

Ooooo

When the lights go out

How you gonna find your way
How you gonna find your way

Will you ever find your way
Come on all you vampires

With your blood sucking ways

Come on and turn me out

Ooooo

When the lights go out

How you gonna find your way
Come on all you vampires

With your blood sucking ways

Come on and turn me out

Ooooo

When the lights go out

How you gonna find your way
