JUMP!! Been bored...

I did all the work, my boss got the perks today
I cleaned up the crap, my boss got the cash today
I painted my nails, they told me I was a queer
They kicked in my head and told me to dissapear
I'm outta here

The kind of day I've had
It can't get any worse
It feels like I've been born under a bad sign
And I've got to break the curse

This is a nice place to work, so smile and take it on the
chin
He is my supervisor, I must obey him
He is my master, I am his worthless slave
I made a mistake he took it out of my pay
That's okay!! Cause...

The kind of day I've had
It can't get any worse
It feels like I've been born under a bad sign
And I've got to break the curse
The kind of day I've had
I should've stayed away
I should have stayed at home watching
Children's television, it's been that kind of day

Stare at the clock....
