Mum felt fine wanting to kill the family before the news
Shez the ruler of the prozac kingdom her appliances
and phoney conversations
Talk to your mum wendy even if she seems distant
lately
Its just the sunshine in her eyes
The weather that the doctor prescribed

Bridge:

And wendy's warming her hands on the flames
The halversons will never be the same ohhhhhh

Chorus:

You do something to me
You do something to me
You do something to me
All the time.....

Dad was sick he got his fingers caught getting close to
an old flame,
He wonders why his wife cries all the time
He wounders why he can't find peace of mind
You can't expect your kids to turn out fine if their
playing with matches
Another one to fall from success
Another one is all enchanted

Bridge:

And wendy's warming her hands on the flames
The halversons will never be the same ohhhhhh

Chorus:

You do something to me
You do something to me
You do something to me
All the time.....
You do something to me
You do something to me
You do something to me
All the time.....
