Whenever I see your face, the world disappears.
All in a single glance so revealing.
You smile and I feel as though, I've known you for
years.
How do I know to trust what I'm feeling?

I believe my heart
What else can I do
When every part of every thought
Leads me straight to you
I believe my heart
There's no other choice
For now whenever my heart speaks
I can only hear your voice

The lifetime before we met has faded away
How did I live a moment without you
You don't have to speak at all
I know what you'd say
And I know every secret about you

I believe my heart
It believes in you
It's telling me that what I see is completely true
I believe my heart
How can it be wrong
It's says that what I feel for you I will fell my whole life
long

I believe my heart
It believes in you
It's telling me that what I see is completely true
And with all my soul I believe my heart
The perfect part it makes of you
Is a perfect love of heart
