Everybody wants  
to love somebody  
its really simple but its not that easy  
everybody needs some reassuring  
but when you break it down  
they dont believe it  
everybody dreams of the perfect ending  
but its not a film and im not pretending

s000  
wont you tell me,  
does everybody feel the same  
like you and me, why cant you  
help me we've only got ourselves to blame  
just you and me why cant we  
fly, maybe if we jump together  
just you and me believe so  
what are we waiting for

did i show you something  
a little bit frightening  
i didnt mean to scare you  
but i thought you should know  
that i need my distance  
but i want you closer  
am i making sense  
cos i dont think so  
and your a wild thing  
your gonna take your freedom  
and remember eve in the garden of eden

s000  
wont you tell me,  
does everybody feel the same  
like you and me, why cant you  
help me we've only got ourselves to blame  
just you and me why cant we  
fly, maybe if we jump together  
just you and me believe so  
what are we waiting for

isnt there something better

just a little more  
we can live and die this way  
dont you know

s000  
wont you tell me,  
does everybody feel the same  
like you and me, why cant you  
help me we've only got ourselves to blame  
just you and me why cant we  
fly, maybe if we jump together  
just you and me believe so  
what are we waiting for

are we waiting for

yeah yeah

what are we waiting for

yeah yeah

what are we waiting for
