Look at the stars and you'll see that it's real,
If you look at the stars then you'll know you're a
Starchild.

Once you have seen it you'll always believe in the stars
All your life you were born as a Starchild.

Look at the stars and you'll see that it's real,
If you look at the stars then you'll know you're a
Starchild.

Once you have seen it you'll always believe in the stars
All your life you were born as a Starchild.

Look at the stars and you'll see that it's real,
If you look at the stars then you'll know you're a
Starchild.

Once you have seen it you'll always believe in the stars
All your life you were born as a Starchild.

Starchild... Starchild... Starchild...

Look at the stars and you'll see that it's real,
