Hear this, I can't deny the truth  
Hear this, I can't complete my youth  
Clear this unclear aim for truth  
Clear this rusty way of yours  
Clear this for you  
Evoke the truth

'cause I will never let you through  
No I will never let you through

Tear this touchy town apart  
Tear this posh party in parts  
Wear this itchy shirt of limits  
Hear this tiny voice of truth  
Clear this for you  
I will blast the truth

'cause I will never let you through  
'cause I will never let you through  
'cause I will never let you through  
No I will never let you through

I will evoke the truth  
'cause you're wasting  
You're wasting your youth  
I will blast the truth  
I will clear out a blast beat from you

I will evoke the truth  
'cause you're wasting  
You're wasting your youth  
I will blast the truth  
I will clear out a  
Blast beat from you

I will evoke the truth  
'cause you're wasting  
You're wasting your true you
