Relax take a break - Don't disturb me I'm trying to make  
Some creative work - But the words won't come out  
It feels like I have a blockade  
It's frustrating - It's a mind curse  
'cause every time I have a stop - I give up  
It should be so easy  
But music is a sensitive art

I will be the no. 1

Hey just free me  
Jack don't disturb me  
Punk you know I love you  
This factory has shut down

I just can't sing an other mans word  
Just leave me - Just bloody leave me  
I'm really trying to prove my worth  
But I think like a robot

'cause

I just have an automatic stop - I will not end like a flop up cup  
If I just could kill the clockwork - If I just could smash it  
Then:

I will be your no. 1

Hey just free me  
Jack don't disturb me  
Punk you know I love you  
This factory has shut down

I won't surrender  
I won't surrender to you
