"To Metropolis"

Now I leave my roots and run away
Turn my back to the fear
I will embrace all the things I've learned
And start a new and independent life

I will face fear tonight
I will face it tonight
'Cause I am heading for my future
I'm going to Metropolis

Years of yearning for Metropolis
With a wall of dread to compromise
All my youths langing to cut the strings
In the theatre af peace and love

I will face fear tonight
I will face it tonight
'Cause I am heading for my future
I'm going to Metropolis
