

## Dungeon

### "The Power Within"

Visit "[The Power Within](#)" on MotoLyrics.com

Look within for a place deep inside me  
Where I can believe  
Seek the truth my own master, my own king  
Where my spirit is free

Seeking gold and the treasure external  
Fight within for the chance to grow  
See the real man within, he's eternal  
Deep inside we all know

We all search for the mysteries of Eden  
I now know what's inside - there's no turning back...

Every man has a kingdom inside him  
Will he ever see  
What is here in the now is the reason  
Find the path for his soul to be free  
Deep inside is the key...

Pushing on with the strength of conviction  
Now within there's a fire inside  
Find the answer without contradiction  
My soul free to fly

If we look to the power within us  
Look inside, there is no turning back...
