Wanna feel what I touch
Wanna find what was lost
Wanna be kind
As you see every curse
In a dream it'll work
Now you'll feel tied

Wanna praise with this life
And conceal without lies
I just need time
Wanna fight every need
Every push, every string
Will you stand by?

I've been away through the wrong decisions
I've held my ground now I'm gaining soul
I bit my tongue through the cold realizations
I've been accused but I've only begun

Wanna speak what I've seen
Wanna reach what I've dreamed
Wanna be kind
Wanna seal what I've cut
Wanna hear without rush
Wanna ease time

With your hand on your loss
Our scene truly cost
No one told you
And we grew from the day
Into night I'm ashamed
I will join you

I've been away through the wrong decisions
I've held my ground now I'm gaining soul

I bit my tongue through the cold realizations
I've been accused, but I've only begun

Take me on, take me on
I've been awake, shaking to a rage
I've been awake, shaking to a rage

In the end only once
All you need is a touch
Wanna see love
Every thought you'll be shown
Every act will be known
I defend you

We'll awake every sound
Every chance I'll be found
I'll be with you
To the end now you come
Show your hands to the ones
Who behold you

I've been awake through the wrong decisions
I've held my ground now I'm gaining soul
I've held my tongue through the cold realizations
I've been accused, but I've only begun

Take me on, take me on
I've been awake, shaking to a rage
Take me on, take me on
I've been awake, shaking to a rage

Take me on, take me on
Take me on, take me on
I've been awake, shaking to a rage
