Son, I see it in your eyes  
There is a burden you cannot hide  
But in their arms you feel so alive  
And in a moment you cast aside

All lines have broken and we need you to hold on  
Your eyes have opened but you've got to go on  
I'll comfort you, I'll stay with you, it's a promise not  
forgotten

Now I hear you in my mind  
There was a story you claim to have  
And I will bow gently by your feet  
I'll tread softly or tread on my dreams

All lines have broken and we need you to hold on  
Your eyes have opened but you've got to go on  
I'll comfort you, I'll stay with you, it's a promise not  
forgotten

You're crying all these tears but they mean to leave you  
dry  
Still fighting all these years 'bout the same old things  
We wished we never had

The vision softly fades  
But there's a light that still remains  
And in these walls, I feel your sadness wain  
But in the moment you feel no pain

All lines have broken but we need you to hold on  
Your eyes have opened but you've got to go on  
I'll comfort you, I'll sing to you, it's a promise not  
forgotten

Come on baby, let's ride the sunrise  
Come on baby, let's light the night  
Come on baby, let's light the sunrise  
Come on baby, let's light the night

Come on baby, let's ride the sunrise  
Come on baby, let's light the night

Come on baby, let's light the sunrise  
Come on baby, let's light the night

Come on baby, let's ride the sunrise  
Come on baby, let's light the night  
Come on baby, let's fight the sunrise  
Come on baby, let's light the night

Let's light the night  
Let's light the night
