"Vision"

As soon as my vision clears
As soon as these visions leave us
Saw my love as bright as the sea
Every time I'm with you I can almost feel
Soon as I can get my mind around
Soon as I can get my hands around
I'd give you everything but still I'd let you down
Every second sending much I'll come around

Come around
Come around
Come around

Maybe we can only wish now
And maybe there's no reason left now
I'm sorry I believed that one way
There's nothing left to take so you go your own

Come around
Come around
Come around

Ooooooh
