This is more than I wanted
Take me out of the dark, I roam there
Cold and black, you're out of touch, yeah
Lightly falling in a whisper, you're scared

It's the weight of the world, I know
As I struggle to be whole
It's the weight of the world, I know
As you were mine and we will find

This is stranger than love or loss
Turning backwards you face the dawning
No excuse for a wasted life
Lightly falling through a whisper of sky

It's the weight of the world, I know
As I struggle to be whole
It's the weight of the world, I know
As you were mine and we will find

Time will change, still the world remains the same
Time will change, still the world remains the same

It's the weight of the world, I know
As I struggle to be whole
It's the weight of the world, I know
As you were mine and we will find
