"Late Bar"

There's a hole in the wall next to you
Things with legs are crawling through
Their madly searching for the door in your room
You're coming out, your coming down

There's an all night party in room 7609
(la-la-la late bar la la la la la la late)
You can dance together all night, if you've got the time
(la-la-la late bar la la la la la la late)

The bodies move like flies on the wall -
You want to run but there's no space at all
The dancers spinning in the mirror ball
You're coming out your going round

(chorus)

-

Just come to the late bar
Come, so fast
Drink..
I know what I'm talking about
I know what I'm doing
Ahh..

(chorus)
