If I strum cords would you sing a song for me?
If I leave town would you come along with me?
We can fly away to outer space
We can find a way out of this place

We don't need a map and you can through your phone
away
We don't wanna hear the things we know they're gonna
say
You don't trust yourself but girl trust in me
Don't look in the mirror, the past you don't wanna see

What do you say we leave for California?
If we drive all night we can make it by morning
and no one has to now if we decide to go
Oh, what do you say we leave for California?

If we leave our friends then we could be together
We can leave this town if only for the weather
I could drive and you could sleep
While the radio collides to the sound of our heartbeats

What do you say we leave for California?
If we drive all night we can make it by morning
and no one has to now if we decide to go
Oh, what do you say we leave for California?

What do you say we leave for California?
If we drive all night we can make it by morning
and no one has to now if we decide to go

Oh, what do you say we leave for California?

Hypnotized by the carbon monoxide
Would turning back be a good idea?
Your cigarette after cigarette
Cannot help to calm your fear

Now I'm still drivin'
You keep sleepin'
We'll keep movin'
But I'm not leavin' no I'm not leavin'

What do you say we leave for California?
If we drive all night we can make it by morning
and no one has to now if we decide to go
Oh, what do you say we leave for California?

What do you say we leave for California?
If we drive all night we can make it by morning
and no one has to now if we decide to go
Oh, what do you say we leave for California?

What do you say we leave for California?
If we drive all night we can make it by morning
and no one has to now if we decide to go
Oh, what do you say we leave for California?
