"Deal With It"

Can you deal with it?

there must be somebody
who will make love to me
blow the rules away
and trash these yesterdays
live in sin with me
use psychology
to find the twist in me
can you deal with it?

recent inquiry
showed no boundary
love's the only way
can you handle it?

can you deal with it?
can you deal with it?
can you deal with it?
can you deal with it?

can you deal with it?
when you ain't sorry...
for all that you apologize
working up to something
i know you're up to something
yeahhhh!!!

(chorus repeat
