Do you believe in love?
Do you believe in shame?
If love can conquer all
Then why do we only feel the pain?

I heard you speak my name
Heard you singing, 'The Stones'
Maybe heard you laughing
In a line of static on my telephone

So why your eyelids are closed
Inside a case of rust
Did you have to change
All your poets fire into frozen dust?

I've tried to justify it
To learn from your mistake
Where's the stupid lie
That has to make it's point with such a pointless waste

Come out

Do you believe in shame?
Do you believe in love?
And if they taste the same
Would you love again or abandon both?

I don't think I ever can
Believe my friend has gone
Keep saying it's alright
I'm going to bring you back but I know I'm wrong

There's nothing I can say
There's nothing left to do
It's just that lately
I feel so damn lonely when I think of you

And it may seem selfish now
But I'll hold on to the memory
Until all this fear is washed away

Do you believe in love?

Do you believe in life?
'Cause I believe a little part of you
Inside of me will never die

'Cause I believe a little part of you
Inside of me will never die
'Cause I believe a little part of you
Inside of me will never die
'Cause I believe a little part of you
Inside of me will never die
