

Duran Duran "Hot Head"

Visit "[Hot Head](#)" on MotoLyrics.com

Here in the shadows where we stand watching lady
watching man
Reading through pictures as they roll we see the planet
lose control

Hothead evolution non-stop evolution
Hothead evolution non-stop evolution hothead

Time will change the picture about time, time will
change the picture
Power to change the point of view but what is fake and
what is true
Blow by blow you're telling me you'll change the course
of history

Hothead evolution non-stop evolution hothead
Hothead evolution non-stop evolution hothead,
hothead

Time, time
I turn you on you turn me off right now I'm suffering
from this culture shock
Spread confusion wherever you can with shaking
heads and shaking hands
Use propoganda to manipulate when there's mega
bucks you protect the state
And the body break and the body tumble so you build it
up and you watch it crumble

Time, time will change the picture evolution non-stop
evolution
About time, time will change the picture evolution non-
stop evolution
About time, time will change the picture evolution non-
stop
