American Science

It's a little bit late now
but there is times you will
get a little bit out of hand
making all of a spill
and if we can lay this down
you're going all the way
take a look and I'll check it out
Cuz I can always find it

Such a lonely Place...Ooooh
This room without your face...Ooooh
Ooooooh...American Science
All night long
she can two-step and sway
Ooooooh...it's such poor manners
don't keep me waiting
come lay down beside me

A little megalomania
becomes you evidently
there ain't a thing you can't acquire
with your cling-wrap plaything
just look at this state
I crawl around in a daze
like symptomatic case
of your soul persuasion

Such a lonely Place...Ooooh
It moves me into place...Ooooh
Ooooooh...American Science
All night long
she can two-step and sway
Ooooooh...it's such poor manners
don't keep me waiting
come lay down beside me

(repeat chorus)
