Shackled and raised for a shining crowd  
They want you to speak  
But the music is louder than all of their roar  
With the heat of the planet's core

But, the shadows are on your side  
As soon as the lights go down  
In the darkest place you can find  
You belong to the hands of the night

Promises made with a distant friend  
Truth should be known it can only bend  
To a tune of its own  
Hey, you'll never hear that voice again

Scandal in white on a tangled vine  
With everybody to say that  
You're having the time of your life  
When your life is on the slide

But, the shadows are on your side  
As soon as the lights go down  
In the darkest place you can find  
You belong to the hands of the night

The shadows are on your side  
As soon as the lights go down  
In the darkest place you can find  
You belong to the hands of the night

Ohh, ohh  
Ohh, ohh

Spinning a compass to choose your way  
You can run, you can dive  
You can stand and you can soar  
Whichever way you can be sure

That, the shadows are on your side  
As soon as the lights go down  
In the darkest place you can find  
You belong to the hands of the night

The shadows are on your side  
As soon as the lights go down  
In the darkest place you can find  
You belong to the hands of the night

Shadows on your side  
The shadows are on your side  
Shadows on your side  
The shadows are on your side

Shadows on your side  
The shadows are on your side  
Shadows on your side
