SINNER OR SAINT
Step on for the ride
Right now you know that is the place to be
To watch humankind
Stumble into another century
Techno prisoners
They sure are givin' you the runaround
Violence on your mind
Coz your attention is the battleground

What are you?
Sinner or saint
Gotta be a sinner or saint

Ice cold war voyeurs
Straight up I guarantee you're gonna get
All that you deserve
Sit down, plug in, you ain't seen nothin' yet

What are you?
Sinner or saint gotta be a sinner or saint do you know?
That is your fate you're gonna be sinner or saint

Some people love too fast
Some people live too long and so I've got to ask
Do you know right from wrong
Mr. Templar will you ever really be a Saint

Still on for the ride
Who cares if you lose or win
They can't bleed you dry
When you're a-pumpin' the adrenalin

What are you sinner or saint
Gotta be a sinner or saint
Do you know it's never too late
You're gonna be a sinner or saint
