Whose tears on a gaping voice  
Whose stretching arms match the hunger of mine  
These lips will they never join  
But always draw me closer and further entwined

With a promise dealer understand all  
freedoms fade away  
To a point of view where many different  
pathways meet  
And we're standing on this precipice with  
nothing much to gain  
But the deep blue screams of falling dreams  
with our next move

Heaven hide your eyes  
Heaven's eyes will never dry

The shades of a thousand steel

Come flashing by my face in the fury of war  
In desolation and abandoned fields  
The hungry make their stand when they'll stand for  
no more

Hear the passion in their voices  
See the heaven in their eyes  
Their hopes and schemes are waiting dreams of  
less than paradise  
And sometimes we make promises we never mean to  
keep  
For blackmail is the only deal a promise dealer sees

Heaven hide your eyes  
Heaven's eyes will never dry
