All Along the Water

guess you know
where I wanna go
got to see the water flow
try to understand
got me trapped
playing with me like a cat
scrape your fingers down my back
pin me to the ground

all along the water baby
take me to your water babe
all along the water babe

i'll get by
can't you see i'm burning up
when you come and turn it up
higher every time
if i stay
oh the end is near
come and get me out of here
come and get me now

(chorus)

tell me is there any left
i wanna drink it up--i'll drink it up
baby, if there's any left
i'll drink it up, drink it up, drink it up

(chorus)
