sampled intro]

"it makes me feel so good"

"it makes me feel so good"

"it gives me something to believe in"

"it makes me feel so good"

"it gives me something to believe in"

Are we so far away

We seem so far away

Tell me I never know

What you are going to say

[chorus]

I would

Suffer it all again

Suffer it all again

I would

Suffer it all again

Suffer it all again

Are you so blown away

You seem so blown away

And as you leave me now

I meet myself again

[chorus]

Now all the days the same

This habit forming pain

Oh how I need your love

I need you home to stay

[chorus]

"you won't feel out of place"

"you won't feel out of place"
