Felt the fool for far too long  
Took some time but now I'm strong  
Don't really matter who's right or wrong  
When you feel like I do  
Had your way with time to kill  
Crush ones dreams and break ones will  
Thought you'd won but I'm standing still  
Despite what you do

[Pre-chorus]

So I guess I'll hold on tight to what I have  
Though it's little  
And I guess I'll fight the fight although my will  
Has grown so brittle  
Well the stories the same and it does me no good  
Because you'd sell me your soul  
If you only could

[Chorus]

Take your blue skies, deceit and your lies  
And your cold eyes don't fool me no more  
Take your blue skies cause I don't want to be blue  
anymore

Wounds will heal and lessons learn  
Ashes left where hopes all burned  
Stories change and pages turn  
Despite what you do

[Pre-chorus]

[Chorus]

Time may grant a brand new start  
But the answers in your heart  
Only I can find a way to make a new  
And tomorrow may bring fear  
At times too much to bear  
And that's where I rise again

[Chorus]
