(Norma Tanega)

No stranger am I
You enter my world
I hear flowers sing
No emptiness now
You enter my world
Hear flowers with me
Sing joyous

I feel you 'er I sing
No unending time alone

No stranger am I
You open my eyes
I feel laughter ring
No longer alone
You open my heart
Feel laughter with me
Ring joyous

Indifference gone away
No unending time alone

Indifference gone away
No undening time alone
