(gerry goffin / arthur kornfield / toni wine)(now that
you're my baby)(now that you're my baby)You're
never gonna run aroundOr see that girl who lives up
townI'll be trying everydayTo keep you happy in every
waySo you won't ever want to run aroundNow that you?
re my babyYou can kiss your playboy days
goodbyeYou're gonna be a different guyFrom now on
you're gonna beSpending all your time with meSo you
can kiss your playboy days goodbyeNow that you're
my babyI can give you all the lovingYou've been
searching forI love youAlways dreaming of youYou ain't
gonna run around no moreNo, no, no, no moreBaby, I
can give to youA love that's good and oh-so trueSo,
you can throw your little black book awayNow that you?
re my babyI can give you all the lovingYou've been
searching forI love youAlways dreaming of youYou ain't
gonna run around no moreYou can throw your little
black book awayYou'll be my man starting todayBaby, I
can give to youA love that's good and oh-so trueSo you
can throw your little black book awayNow that you're
my babyGonna be a different guyYou're gonna kiss
those days goodbyeNow that you're my baby
