(Come where the flavor is)

We've been waiting so long to be here  
And we like that you like it my dear  
So we're letting you know  
That we'll reap what you sow  
And we'll never let you go, oh no (let you go)

Come where the flavor is, where the flavor is  
Oh, come where the flavor is

We've been waiting so long to be here  
And we're keeping it perfectly clear

It's a hell of a time  
You'll be out of your mind  
Won't you leave it all behind? all behind? all behind?

(Come where the flavor is) [x2]

We've been waiting so long [x3]  
Come where the flavor is, where the flavor is  
Oh, come where the flavor is, where the flavor is, oh  
Yeah, come where the flavor is [x3]
