"Falling Into You"

Save me
I can't go on without you anymore
Give me
The kind of love that I've long been longing for
I've never needed anyone before
The way that I need you
I'm calling
I'm calling out
I'm calling out to
Calling out to you
I know that you can hear me
Calling out to you
Take me
I don't belong to myself anymore
Break me
Of all the sins that I've long been living for
I never knew what freedom was before
Until I came to you
I'm falling
I'm falling in
I'm falling into
Falling into you
I know you're gonna catch me
Falling into you
