Round round fuck around  
She fuck around  
Round and around that stupid fuck  
I know a girl in this town  
She likes to fuck when the sun goes down  
She likes the rooftops  
She likes the floor(?)  
Suck that cock on the bathroom floor  
She likes to ride on the merry-go-round  
And I like the way that she fuck around  
She's too cunning  
She's real cute  
We kiss on a jungle gym  
Every month her herpes seed  
She pass it on to me  
Well I go ga-ga when she goes down  
And I like the way that she fuck around  
Fuck around and around, round  
They talk about life's a circus and she's the clown (?)  
But I like the way that she fuck around  
Well she likes parties  
She's my fool(?)  
She dropped out of high school  
She's always broke but she don't care  
Hold those legs up in the air  
Yeah thinkin' about ?  
Don't make a sound  
And I like the way that she fuck around  
Fuck around and around, round  
(No, no, never gonna cum again)
