Fuck you till you die
Not really living but a lie
They'll crank you till you drop
Till you?
Everything you try

They will fuck you till you die
Cos there's a limit on the sky
They'll snare every single hope
Steal your very soul
Never hear you cry

You really thought you had a plan for yourself
But you was working for somebody else
You really thought that they had time for you
But now? and you're through

Fuck you till you die [x2]

Fuck you till you die [x4]
