*[spoken:]*

Shooting up in the boys room at Dog High School,  
Dorkville, USA.

Another west, and Louie Louie, they got something  
going down kinda screwy.

Down to the Comet, come on and vomit, yeah if there's  
something to be on well I know that you'll be on it.

Smack City, the skies are ugly and the girls are grey.

Smack City, USA.

Well if you come, come as you are, and you can drop  
down dead inside the bar.

Yeah, you can touch, because I'm sick, and tell me that  
your whites are safe for sucking dick, DICK!

Well I'm going down to Smack City, gonna have some  
fun!
