(Come where the flavor is)

We've been waiting so long to be here
And we like that you like it my dear
So we're letting you know
That we'll reap what you sow
And we'll never let you go, oh no (let you go)

Come where the flavor is, where the flavor is
Oh, come where the flavor is

We've been waiting so long to be here
And we're keeping it perfectly clear

It's a hell of a time
You'll be out of your mind
Won't you leave it all behind? all behind? all behind?

(Come where the flavor is) [x2]

We've been waiting so long [x3]
Come where the flavor is, where the flavor is
Oh, come where the flavor is, where the flavor is, oh
Yeah, come where the flavor is [x3]
