Took those pills
Yea, and I hoped that they would kill
Crashed my car on the day the Earth stood still
Now I'm dead inside
Come back to me, my suicide

I left my song unsung
Yea, and I wish my life was done
Set myself on fire there in front of everyone
Now I burn inside
Come back to me, my suicide

Happy suicide [x2]

Shot my gun (you know I shot my gun)

At the hole inside my lung
Jumped off a bridge on the day my heart was stung
Now I'm sore inside
Come back to me, my suicide

Happy suicide [x4]

Slit my wrist (you know I slit my wrist)
That's cos you made me do this
Hung myself on the tree of happiness
Hope you're dead inside (happy suicide)
Come back to me my suicide

Happy suicide [x3]
