To save the ozone and the Earth
And all the creatures, sand and surf
This world is full of things to do
And yet it always come back to

Let's just get high and fuck some sluts
Do what we will, not what we must
Forever stuck in juvi-lust
So what?
Let's just get high and fuck some sluts

A cure for Cancer and for Aids
To volunteer in fire-brigades
Home for aging and infirm
How come we never ever learn?

Let's just get high and fuck some sluts
Do what we will, not what we must
Forever stuck in juvi-lust
So what?
Let's just get high and fuck some sluts

Now time is fleeting, life is short
It's much too late now to abort
Nobody care you live or die
Born to lose and let you lie
That's why

Let's just get high and fuck some sluts
Like cave men banging round their huts
There's rope and duct-tape in the trunk
Let's just get high and fuck some sluts

Let's all get high and fuck some sluts
