The Dwarves must die  
So we can live another day  
The Dwarves must die  
Until next time that's all we'll say

Hey, why would we lie?  
About our demise  
No one would ever sympathize

The Dwarves must die  
It's time to meet our Waterloo  
The Dwarves must die  
Cos we can make that dream come true

Wait, keep in suspense  
Centuries hence  
It all makes sense again

Live for you sins  
Die to begin  
Dropping like flies when we're under your skin

Let's say so long  
No right or wrong  
Turn up the song and bang the gong and on and on  
and on

The Dwarves must die
