I feel so alive
When I am high
Never will die
? to survive
Steve got the stash
Wide on the grass
Spend all my cash

Some we know might just perpetrate
Or need to aggravate, but that ain't our case
Yeah, you know we never hesitate
We just accelerate
Speed up the pace

Snort what you got
Smoke all your pot
We only came to get high
Take all your pills
Go for the kill
We only came to get high

I feel so alive
When I am high
Never will die
?
?
?
? smack

Speed up the pace!

Snort what you got
Smoke all your pot
We only came to get high
Take all your pills
Go for the kill
We only came to get high

Get high!
