I hope that you'll agree
And find our love to be
One of the most radiant affinities
Always in love, is true
You'll do for me as well I
Do for you
And we'll watch this love build
I love you more than I
Can show you in a rhyme
I was hoping we could spend some time
My goal in life fully
Consist of you and me
That we will live our lives in affinity

I love you more than words
Can show
Affinity (affinity)

Speaking of you and I
Our love must hold no lies
That brings no alibies
No jive
With us, hopefully,
Our love will always be
The envy of the young and old
I love the fact that you
Feel exactly like I do
That helps our affinity to prosper

Infinite affinity
Affinity.....

Our affinity shall last forever
Yu'll make it happen
I'll make it happen
We'll make it happen together

Affinity, oh, affinity.....
