Oh, oh, oh  
Oh, oh, oh  
Hold on if you don't mind  
Oh, oh, oh  
Woah, woah, woah

Open your ears  
Don't allow these words to be ignored by years  
Fearing lullabies  
Containing the same old lies  
Dealing just to deal is just a crime  
Besides I know you wouldn't mind  
Tryin' something new so

Let's try, we can work it out  
If you let love guide the way that you feel for me  
Oh, why let this opportunity pass by  
You should hold on

Please don't resist  
Bless those harmonies to me  
Escape your lips  
There's no need to go home  
Just to dance along  
I know you can't enjoy it on your own  
Really I don't see nothing wrong  
With you and I spending some time

Also let me mention, my only intention

Is to feed you every single thing you hunger for  
In my heart I have to and want to have you  
So fulfilled that you will never need to ask for more

Let's try, we can work it out  
If you let love guide the way that you feel for me  
Oh, why let this opportunity pass by  
You should hold on

Girl instead of running from my love  
You can run to, to these arms that's meant for you  
So why not stay around

Let's try, we can work it out  
If you let love guide the way that you feel for me  
Oh, why let this opportunity pass by  
You should hold on

Let's try, we can work it out  
If you let love guide the way that you feel for me  
Oh, why let this opportunity pass by  
You should hold on

Let's try, feeling's so strong  
You should hold on  
Feeling's so strong  
You should hold on
