My Lady, My Lady, My lady

[Verse 1:]

My lady you doing it

I can't withstand

You better slow it down,

Where I'm from, Dwele will make you forget your man

I'm trying to hold tight, but I can't help if he don't move

you like you need to be

(ooh oh baby alright)

(All I) wanna do (is) glide or slow motion straight to you

(Then) Figure a way to make you move (by)

Using my hands, using my dance

(All I) wanna know (is) when you get it down on the floor

(How) does your body move and make me grab your
hand

And find out your name

[Hook:]

Ah, my lady

Wanna know what you eat, what you speak, wanna
know your name

Ah, my lady

Wanna know if you smoke, if you tote, wanna know
your name

Ah, my lady

Wanna call you tonight but I don't even know your
name

Ah, my lady

Wanna know how you feel about me gettin to know you

[Verse 2:]

I got you step with me you need a ting, I

Got you, come with me, now I think its time

Wait it's so close

Let's move on to the after party,

I thinking that you stare at me for

Tonight there's no greater love, love

(All I) needed was

(one) line, one dance I thought just

(two) minutes ago you had a man

But (now) things have changed, I see nothing stays the
same
(All I) wanna know (is) the quickest way to the back
door
If you don't mind, I won't complain
I don't even know your name

[Hook]

You are (my lady), I wanna get to know you babe, said
you are (my lady)
I need to know you in every way because you are (my
lady)
You're my my my, I need to know you in a special way
(my lady, my my)
So come on baby

[Hook x2]

(ah) my lady, (ah) my lady, (ah) my lady, (ah) my lady...
