Last night somebody told me that you would be in town.  
I opened up my eyes and you were staring me down.  
I often think about the last time we spent together. Um  
hum.

And sometimes when eva I'm alone and it's just me  
Ooh, you serve a special part in memory.

Ooh it's a dream to see you here with me after all this  
time

(oh baby) (I miss you)

You're still fine.....for the weekend.

(girl let's chill) (for the weekend baby I'd like to chill for  
the weekend)

(Repeat)

This morning I wake to find you next to me  
Holdin' a long conversation over some green tea baby  
We speak about the love of the night before um hum  
hum

And it's killin' me I gotta let you leave althogh

At least we know that we made another memory

Of the way you let me love you you've got me so in  
love.

Chorus: To fade
