"Place To Cry"

Visit "[Place To Cry](#)" on MotoLyrics.com

What I'm looking for is all I need cause what I've
wanted most is
Some space between her heart and mine
Which sure ain't no small chore to find
What I get will lead to what I do I just hope that's not
later than it is soon
Or else all night I'll be up again alright
What I straight up need to score is a place to cry
This ain't over until once it's through but once more's
twice as much as I can use
Or care to try for my eyes to get dry
Cause man the fix I need right now is a place to cry
I don't need a lot just some quiet spot that won't stain
from tears
Please I'd rather not see us both get caught with
cleaning up that could take years
What starts hurting worst is not as strong as the aches
that happen next
Then before long it passes by
But not until I want to die cause what I'm strung out for
is a place to cry
[guitar]
I don't need a lot just some quiet spot that won't stain
from tears
Please I'd rather not see us both get caught with
cleaning up that could take years
What I'm looking for is all I need cause what I've
wanted most is
Some space between her heart and mine which sure
ain't no small chore to find
Oh what I'm jonesin' for right now is a place to cry
Yeah what I'm jonesin' for right now is a place to cry
[guitar]
